

Drop Your Guns

April Wine

(david henman)

Published by summerlea music, ltd. - bmiLook at all the places we been, and look where we are

Something is amiss here cause we never seem to get very far

Now I got a feeling, a plan, some music to sing

And I'm looking for the right words to convey the message we bringIf you can hear it, mmm, I'm gettin' near it,
if I can say it

Drop your guns, and raise your hands in the air

You're the one that started all the trouble out thereGrease me, I'm near you, blast me, I'm in your way

You're the thing in a song, that really ought to be put away

Now I got a feeling, a plan, some music to sing

And I'm looking for the right words to convey the message we bringIf you can hear it, I'm gettin' near it, if I
can say it

Drop your guns, and raise your hands in the airDrop your guns, and raise your hands in the air

Drop your guns, and raise your hands in the air

Drop your guns, and raise your hands in the air

Drop your guns, and raise your hands in the air
