One Step Away

Ratt

I'm waitin' for your baby on an hot summer night
I was so hot for ya, you were nowhere in sight
You thought I was foolin' so your heart took a flight
I guess we're star crossed lovers, we just can't get it rightTwo years later I was out on the town
I saw you on the street and my heart hit the ground
I guess love is like a chain and you're always boundIt's better late than never, girl am I gettin' through?
It's better late than never than livin' without youI'm one step away, we're ships in the night
But tonight you ain't gonna get away
I'm one step away, the timing is right this time
And I'm gonna make you stay
One step away, one step awayI'm callin' on you baby like a blast from the past
I heard your heart was broken, I knew it wouldn't last
Some things are forever and some things burn out fastIt's better late than never, girl am I gettin' through?
It's better late than never than livin' without youI'm one step away, we're ships in the night
But tonight you ain't gonna get away
I'm one step away, the timing is right this time
And I'm gonna make you stay
One step away, one step awayIt's better late than never, girl am I gettin' through?
It's better late than never than livin' without youI'm waitin' for your baby on an hot summer night
I was so hot for ya, you were nowhere in sight
You thought I was foolin' so your heart took a flight
I guess we're star crossed lovers, we just can't get it rightI'm one step away, we're ships in the night
But tonight you ain't gonna get away
I'm one step away, the timing is right this time
And I'm gonna make you stay
One step away, one step awayOne step away, one step away
I'm one step away, we're ships in the night
But tonight you ain't gonna get away
I'm one step away, the timing is right this time
