

Fall Together (Kasbo Remix)

The Temper Trap

[Verse 1]

You and me know we're meant to be

Maybe we'll never know

You and me are worst enemies

Cause we don't believe anymore[Pre-Chorus]

Out on the streets

Our colors bleed

Nobody speaks to me[Chorus]

Here I am, give me something I could follow

So I can find my way out from the shadows

Raise your voice cause the time is now or never

And if we have to fall, we'll fall together[Verse 2]

Shattered dreams will tell me everything

I've been listening, but all I heard you

Foolish drinks

And you'll do anything to keep me hearing your every word[Pre-Chorus]

Out on the streets

Our colors bleed

Are you the one to speak to me?[Chorus]

Here I am, give me something I could follow

So I can find my way out from the shadows

Raise your voice cause the time is now or never

And if we have to fall, we'll fall together[Bridge]

Thunderstorm, Closing In

We're miles off coast from where we're headed

To break our fall

It's the final call

It's the final call

It's now or never[Chorus] X2

Here I am, give me something I could follow

So I can find my way out from the shadows

Raise your voice cause the time is now or never

And if we have to fall, we'll fall together
