

# Bloodlust of the Human Condition

## Unearth

We feed this hunger for horror  
Cold is the human heart, is the human mind  
All born with sickness and impurity  
Bloodlust of the human condition Dark fears are wanted  
Spread it, so these eyes can capture doom  
Thirst for destruction will feed this firestorm  
Until we're gone I can no longer close my eyes  
This is our mortality  
Taken away is our hope  
Clip our wings, crush Our dreams, this is a part of us all  
Clip our wings, crush our dreams  
Forever a part of us all We feed on horror  
Sold is the human soul for crimes in nature  
It's our bloodlust condition Dark fears are wanted  
Spread it so these eyes can capture doom  
Thirst for destruction will feed this firestorm  
Until we're gone We feed on horror  
We're drawn into these open wounds  
The crowds all gather to feed their bloodlust
