Inside Out

Emeline Easton

Inside Out Emeline Easton

(Intro guitar)
Verse 1:
Is this feeling real? or is it all just a lie?
Are you really here? holding me tight by my side?

Pre-chorus:
I just feel so lonely when you're not with me.
Happy when you're beside me only scared and afraid of loss.

Chorus 1:
You take me from the inside inside out
Ooh and I love the way it's inside , inside out.

Verse 2:
I've never felt this alive. But the way that you move lights me up a little bit.
I've died a million times out of misery in spite of what could have been.

Repeat Pre chorus / chorus 1

Bridge:
If I fall, if I trip, It's only cause Im losing grip for you. If Im tumbling down, Well Im falling hard for you now.
I wont be surprised if it doesnt end up the way I see it in my eyes cause your love has got me hypnotized, mesmerized, There's no doubt I cant live without--

Pre-chorus (softly)
I just feel so lonely when you're not with me.
Happy when you're beside me only scared and afraid of loss.

Chorus 2
You take me from the inside inside out
Ooh and I love the way it's inside , inside out.
You take me from the inside inside out
And I love you from the, I love you from the inside, inside out
