

Take It All Out on You

[Kelly Willis](#)

You better look out you're gonna get it I'm gettin' worried for you

You got no idea what you're gettin' into

I've been alone for all these years I know you've been hurting

This world can be hard on a boy like you

I know I know what you've been through

That ain't no reason to keep you feeling blue Oh why this burning inside me searchin' for someone to satisfy me

So much love what am I gonna do I'll take it all out on you It doesn't matter what's the matter you do what you
gotta do

If it comes down to you need me and honey I need you

Oh let me tell you darlin' my love is true Oh why this burning inside me...

[guitar]

Oh why this burning inside me...

Oh why this burning inside me...

I'll take it all out on you yeah I'll take it all out on you
