

Yearning for Love

[Jean B. Gerbier](#)

Yearning for your love

I

It seems not long ago, when we were together, but now silent is all I heard.

Why do you turn away? My heart was young and free.

take the time to know me. Truth and wisdom is what you will see.

It's not by chance. Don't let selfish thought and friends meanness fade
our love away. I need an occasional sigh to escape from this loneliness

Chorus

I am yearning for your love the stillness of the night
with the stars shining high above (3times)

II

I want you to tell me how it was like, when we used to walk in the garden of paradise holding each others hands.

Your curiosity to conquer my love

has faded away to the world of beauty for all mankind. I thought I had forever. How would I know. I need an
occasional sign to escape from this loneliness.
