

# Drink New Blood

## Iggy Pop

Blood

Stupid is stupid

Dumb is dumb

Bloody is bloody

Cum is cum

Fake is fake

A dick is a dick

You're a target in the new demographic

We most need victims to be beaten

Real rotten samples to be beaten

Drink new blood, drink new blood

Drink, drink, drink, drink, drink new blood

Drink new blood, drink new blood

Drink, drink, drink, drink, drink new blood

We got no dicks, we need some bucks

So we need to drink some blood

Drink new blood, drink new blood

Drink, drink, drink, drink, drink new blood, blood

Mom and dad, who are they?

You got any money but you gonna pay?

You're gonna pay for shit music, pay for shit food

Pay for everything 'cuz nobody wants you

We most need victims to be beaten

These nasty kids need to be eaten

Drink new blood, drink new blood

Drink, drink, drink, drink, drink new blood

Drink new blood, drink new blood

Drink, drink, drink, drink, drink new blood

We got no dicks, we need some bucks

So we need to drink new blood

Drink new blood, drink new blood

Drink, drink, drink, drink, drink new blood, blood

Nobody likes you, nobody cares at all

Your money is fucked up, everything is fucked up in your life

Money, money, money, that's all that will save you

But you'll never get enough anyway

We most need victims to be beaten

These nasty kids need to be eaten

Drink new blood, drink new blood  
Drink, drink, drink, drink, drink new blood  
Drink new blood, drink new blood  
Drink, drink, drink, drink, drink new blood  
We got no dicks, we need some bucks  
So we need to drink some blood  
Drink new blood, drink new blood  
Drink, drink, drink, drink, drink new blood  
Outburst, outburst, outburst, outburst  
Infantile violent, outburst, aah, aah  
Drink new blood, drink new blood  
Drink, drink, drink, drink, drink new blood  
Drink new blood, drink new blood  
Drink, drink, drink, drink, drink new blood  
We got no dicks, we need some bucks  
So we need to drink some blood  
Drink new blood, drink new blood  
Drink, drink, drink new blood
