

Crush!

Tahiti 80

d'you remember what i said?
is it still ringing in your head?
just tell me when it stops
when you feel the pressure drop
but don't think i'm waiting
cos i'm onto something better!oh girl!

i take all the blame

c'mon girl

i'd do it again

d'you remember what i said?
as you lie awake in bed
you run around the block
with all the tricks you had in stock
i hear my phone is buzzin'
and i know it's you calling

c'mon girl

i can't bury the hatchetoh i know
you're not supposed to feel ok
but you're not helping me in any way
oh i know

this has to be an all time low
but guess what it's your own scenario
i was a fool to let it go

i should have said no a long time ago
i remember what you said
it's still ringing in my head
i thought it'd never stop
i'd be forever the bad cop,
so please don't keep it coming

i just wanna get going

c'mon girl

i can't bury the hatchetoh i know
you're not supposed to feel ok
but you're not helping me in any way
oh i know

this has to be an all time low
but guess what it's your own scenario
i was a fool to let it go

i should have said no a long time agoit's been a long time since you crushed my soul

and i've been working my way out of that holeoh i know
you're not supposed to feel ok
but you're not helping yourself in any way
oh i know
this has to be an all time low
but guess what it's your own scenario
i was a fool to let it go
i should have said no a long time ago
