

# Magic Life (feat. Chachille)

## Souleye

### Verse 1

So many places in my life that I lived in /  
Traveled East and West / Looking to find /  
What was within / Taking a couple steps /  
Want to know the direction /  
If I don't search how will I know what I was given /  
I Feel like Santiago in the book the Alchemist /  
Or maybe King Arthur in the mist of Avalon /  
It's all these mysteries Joseph Campbell talked about /  
The power of myth / Following your bliss /  
Come and feel the rapture /  
It's time for the next chapter /  
Even when I feel like there is no way I can write it /  
Brought in to this world where people are divided /  
There's no secret I know the artist's way /  
Still to this day disdain is engraved /  
Pack up your bags it's time to go play /  
Wait no longer, it's happening here /  
Tell me what are we waiting for something to appear /

### Hook:

If you really want it, you can have it /  
If you can see it happen it will happen /  
You can bring it to you like a magnet /  
Careful what you think about /  
Cause life is really magic /

### Verse 2

Now this song's not about quick fingers, a slight of hand /  
Rabbit out of the hat cleverness, no disrespect to magicians /  
Or Illusionist with their palm, switch, ditch, steal, load,  
simulation, misdirection sure Penn & Teller will never tell ya /  
So let's explore the theory of relativity /  
Even Einstein had a mind defined by the lines of time /  
So as I enter back through my birth of the DMT /  
And I feast on scraps and I write these raps /  
And I fell that there's not many that really know what /

I'm talking about / Maybe if I slow it down /  
And speak to you like this / you might get that feeling /  
I'm a psychic / I've got the fire burning, I've got that blue flame /  
I had some tea with Merlin and now I'm never the same /  
So hocus pocus abracadabra alakazam /  
Language is an instrument that takes us /  
Beyond the horizon / Go ahead and look in /
