Why don't you fool me, feed me
Say you need me without wicked games
Come on and hold me, hug me
Say you love me and not my dirty brain Why don't you fool me, feed me
Say you need me without wicked games
Come on and hold me, hug me
Say you love me and not my dirty brain I got one Alabama return
That'll take me far away from you
'Cause when you take me in your arms
I turn to slave but I can't be saved So I got my Ccappuccino to go
And Im heading for the hills again
'Cause if we party anymore
We'll start a fire of pure desire Closer, your minds firing blind with your head
In your face getting red in your heart beats closer
You fall on your knees and the geek at your feet
Says you're neat and the beat gets closer You dive for the thrill at the kill but your hearts
Had its fill but it still creeps closer
You wanted to freeze but you're weak in too deep
And the beat and the beat gets closer
Closer, closer, closer, closer, closer, closer, closer We give it up
And then they take it away
A girls got to zip it up
And get her head in the shade Baby, if we give it up
It's just a matter of time
Before all the heavy stuff
Comes back to bite your behind You cant mistake my Biology
The way that we talk
The way that we walk
It's there in our thoughts The magic number's in front of me
The way that we talk
The way that we walk
So easily caught You cant mistake my Biology
The way that we talk
The way that we walk
It's there in our thoughts Were gonna cause a controversy
The way that we talk
The way that we walk
So easily caught Why don't you fool me, feed me
Say you need me without wicked games

Come on and hold me, hug me
Say you love me and not my dirty brain Why don't you fool me, feed me
Say you need me without wicked games
Come on and hold me, hug me
Say you love me and not my dirty brain You cant mistake my Biology
The way that we talk
The way that we walk
It's there in our thoughts The magic number's in front of me
The way that we talk
The way that we walk
So easily caught You cant mistake my Biology
The way that we talk
The way that we walk
It's there in our thoughts Were gonna cause a controversy
The way that we talk
The way that we walk
So easily caught
