The Voice

Teen Idols

Transmission incoming from higher command
what are my orders today
you want me to eat from a garbage can
yes sir, i hear and obeyi've been on this mission all my life
for zero pay, but thats okaythe voice in my head controls me
it keeps me from feeling lonely
the voice in my head controls me
a mission for me and me only
one agent alone in your nation
my specialty's inflirtation
they're coming to capture and hold me
the voice in my head just told meundercover in a land of enemy spies
i live disguised as a bum
primary targer, discovering lies
what will their purpose becomei've been on this mission all my life
for zero pay, but thats okaythe voice in my head controls me
it keeps me from feeling lonely
the voice in my head controls me
a mission for me and me only
one agent alone in your nation
my specialty's inflirtation
they're coming to capture and hold me
the voice in my head just told me
