

# Innocent (Snippet)

Rose Falcon

You answered the phone hello  
I said guess who but you didn't know  
Doesn't it strike you as strange  
It's only been a year but so much has changed  
We'd sneak up on your rooftop  
cigarettes and secrets  
You're the only one I told because I trusted you to keep it

Remember we were innocent  
Sunshine in your eyes  
Tell me you remember when our bicycles could fly  
Innocent

I miss having somebody to call  
When there's something to say or nothing at all  
Everyone asks if it's true the rumors they heard about you  
They say that you got married and you're having a baby  
I don't know how to answer shrug my shoulders and say maybe

Remember we were innocent  
The world turns time goes by  
Everytime I hear our song oh  
I can't help but cry  
Innocent

I'll keep you in my prayers I know that you'll be ok  
And if you ever need my know that best friends are for always  
Always...

Remember we were innocent  
Sunshine in your eyes  
Tell me you remember when our bicycles could fly  
Innocent

Remember we were innocent  
The world turns time goes by  
Everytime I hear our song oh  
I can't help but cry  
Innocent
