

# Taste Of Destiny

## Degradead

It's been a pleasure  
Watching you fail  
Pathetic lie caused you to make mistakes and fail  
No more disgusting pain  
You're a failure  
Pain, Kept us alive with grace  
You're reviving

Out there we have the chance  
To become what we want  
We deserve that fate  
And it's not too late  
We can still make time  
The gavel's falling

It's not so easy, changin the nature  
Destruction, Come and see the evil in us fail  
No more disgusting pain  
You're a failure  
Pain, Kept us alive with grace, You're reviving

Out there we have the chance  
To become what we want  
We deserve the fate  
And it's not too late  
We can still make time  
The gavel's falling

I will break you down  
There is no more time to waste  
This is the right moment

Out there we have the chance  
To become what we want  
We deserve that fate  
And it's not too late  
We can still make time  
The gavel's falling

We deserve that fate

And it's not too late  
We can still make time  
The gavel's falling down
