

# Someone to Love

## East 17

First Thing in the morning when you just arose your eyes still closed  
Your getting up, your feeling down, maybe it cos your beds creased on one side  
you can't hide your face was smiling while you heart wears a frown  
Always moving on, no place to go home living alone why should it have to be this way?chorus- We all need  
someone to love,  
we all need someone to love  
holding and kissing you  
when you go missin you  
Keeping you warm from the cold of the night  
We all need oh someone to love  
your running your hiding you hurt inside  
for memories you can't get away  
from the pain in your heart  
tossing your turning you'll see all you would learn  
in a childhood dream can keep it together while your world falls apart  
your just like them, they don't agree, living alone why does it have to be this way?repeat chorusholding and  
kissing you when you go missing you  
keeping you warm from the cold of the night  
and to be your companion its all understanding your  
every need to be alright  
holding and kissing you when you go missing you  
keeping you warm from the cold of the night  
and to be your companion its all understanding your  
every need to be alright  
we all need someone to love (repeat 6 times)  
holding and kissing you when you missing you keeping  
you warm from the cold from the cold of the night  
we all need oh someone to love (to fade)
