

I Make Love

Jo Jo Gunne

I make love, I make love Consider yourself a lady
Consider yourself a real prize
But just don't give me none of that
Too cool for love
It just might hit you right between the eyes Oh, I make love, oh, I make love I make love, I make love I don't
object to your money
I don't object to your car
Just don't gimme none of that
[Incomprehensible] jar
That's covered your brains a little too far Oh, I make love, oh, I make love
C'mon. c'mon, c'mon I make love, I make love You like a horse in the mornin'
(I make love)
I work like a dog all night Or standin' all year with a guitar in my ear
(I make love)
You're wonderin' why I'm a little uptight Oh you know you're so bony
(I make love)
You smile like a pony Your clones are phonies
(I make love)
That's why you're so lonely
