

# Bunnies

## Antek

I've never been in anything like this before  
We take off our clothes before we're in the door  
Eight hours of work is especially tough  
When three times a day is barely enough  
I got the carrot, you got the stick  
You start to nibble I start to lick  
And we get our bodies all hot and sweaty and runny  
Then we fuck like bunnies  
Showing up early catches me off guard  
Hearing your knock on my door gets me hard  
You drive me rough like a pick-up truck  
It
