

Made Of

Nause

(Of, of, of, of)

This is what I'm made of

(Of, of, of) You can try but never stop me

This is what I'm made of

I will never ever let go

This is what I'm made of

No one can control me

'Cause this is what I'm made of

You can hate but never break me

This is what I'm made of

This is what I'm made of You can try but never stop me

This is what I'm made of

I will never ever let go

This is what I'm made of

No one can control me

'Cause this is what I'm made of

You can hate but never break me

This is what I'm made of

This is what I'm made of You can try but never stop me

This is what I'm made of

I will never ever let go

This is what I'm made of

No one can control me

'Cause this is what I'm made of

You can hate but never break me

This is what I'm made of

This is what I'm made of
