

# Frosted

## Elia\$ha & JpJiggs

(JpJiggs, and Elia\$ha)

(Elia\$ha)

Freeze, stop right there,  
It's cold outside and we dont even give a care.  
You gonna cry? Because you think it's not fair?  
You, just got frosted.

(JpJiggs)

See the snow, falling from the sky?  
Thats's gonna be you soon,  
but you will fall and slide.  
Then there's me, gliding on this ice.  
Burn, you just got frosted.

(Elia\$ha)

It's me i'm here, Elia\$ha,  
This song is on for you to hear, catchy?  
Throwback to Wannabe,  
Where everybody in the world was obsessed with me.  
And Jp, was there, all alone in his chair, probably crying.  
Maybe instead, he should just stop trying,  
Bam, you just got frosted

(JpJiggs)

Since you're frosted, you should probably know,  
If you wanna survive, you gotta stay in the cold,  
But there's one problem, I'm hot and I'm near,  
You better run before I melt you, the way is clear...

(Elia\$ha)

You better watch out, and try not to fall,  
If you ever mess with me, then you'll be getting a call.  
If Elsa was here you'd be up in this,  
But instead you're way down low in this frostiness  
(You just got frosted)

(JpJiggs)

Jp, Jp, Jp's all I hear,  
my fans are cooling me down,  
But I put it into gear,

If you wanna know, what it's like to be cold,  
then go outside, and get frosted.  
I hear my name and I ignore it,  
Cause I am better than you and I Know it ( I know)  
I am holding up my money just to show (just to show)  
And I am freezing you with all my frostiness.

Since you're frosted, you should probably know,  
If you wanna survive, you gotta stay in the cold,  
But there's one problem, I'm hot and I'm near,  
You better run before I melt you, the way is clear...  
(Elia\$ha)

You better watch out, and try not to fall,  
If you ever mess with me, then you'll be getting a call.  
If Elsa was here you'd be up in this,  
But instead you're way down low in this frostiness  
(You just got frosted)

(Elia\$ha)  
Negative 30, can't you see?  
Use your eyes, you're just a wannabe.  
Your coldness, is giving me the chills  
Let's go sledding, down the hill.  
Adding beats? So typical,  
if your frosty stick to the subject take a chill pill,  
Hey, look at all this snow,  
we haven't had snow in so long  
you wouldn't even know.

(JpJiggs)  
It's time to go, you are really annoying me,  
You are ticking me off, it's time for you to leave  
Pack your bags, again I hope we never meet,  
What's the deal? I hope you know that you're not me.

(Elia\$ha & JpJiggs)  
Since you're frosted, you should probably know,  
If you wanna survive, you gotta stay in the cold,

(Elia\$ha)  
But there's one problem, I'm hot and I'm near,  
You better run before I melt you, cause the way is clear (clear)...

(Elia\$ha & JpJiggs)  
You better watch out, and try not to fall,  
If you ever mess with me, then you'll be getting a call.

If Elsa was here you'd be up in this,  
But instead you're way down low in this frostiness  
(You just got frosteeeeeed)
