## Pennywise

## **Pennywise**

Clear your mind, hide your fear Don't look around, don't turn around pennywise here Hold your feelings, hide your fear Don't look around, don't turn around pennywise hereEvil lurks in his eyes The clown they call pennywise He'll catch you by surprise The clown they call pennywiseHe's a monster, he's not human He's more than just a figment of your imagination You can't run, can't hide There's no way to escape pennywiseEvil lurks in his eyes The clown they call pennywise He'll catch you by surprise The clown they call pennywiseHe'll creep inside your soul at night and torment nice and slow Don't turn around or look around pennywise will know He'll make you wish that you were dead and make it hard to cope He'll make you wish that you were dead and hanging by a ropeEvil lurks in his eyes

The clown they call pennywise

He'll catch you by surprise

The clown they call pennywiseClear your mind, hide your fear

Don't look around, don't turn around pennywise here
