

Afasi

Sounds Like Violence

it's beautiful with drunken eyes
i love it when you tell me lies
you're the devil in disguise
here's what i get for all of my tries
something's happened with my head
feeling dizzy
i might be dead
i'm running but there's no end
trying to catch you again and again
you make me faint
just a little bit more
blush
just a little bit more
sick
just a little bit more
tense
just a little bit more
i hit you just to see you cry
you kill me just to see me die
guess i love you but i don't know why
guess it's time to say goodbye
i used to care for everyone
i used to drink just for fun
i am a desperate one
are you sorry for all that you've done?
