

Raindrops

[Regina Spektor](#)

You don't know but that's okay
You might find me anyway
Don't you know that I
Belong arm in arm with you, baby
In a town that's cold and gray
We will have a sunny day
Don't you know that I
Belong arm in arm with you, baby...I do not know
Where does it go
When it goes
Suddenly though
Everything's slow
And i miss you soRound each corner there's a chance
People searching glance to glance
Moving bout real fast
Like insects and fish when they're scared
And they sing the same old song
Though it's been so very long
They sing, raindrops falling on my head
But that doesn't mean that i am deadAnd i do not know
Where does it go
When it goes
Suddenly though
Everything's slow
And i miss you so
