Daily Bread

Philipp Fankhauser

Love is the one thing to rely on
And as long as we all have today, we'll be okay.Six o'clock, so you feed the kids
And you pack them off to school
Take a drive through your secret life
It's a mystery to you.
It's not the way you thought that it would be....But love is the stuff that we depend on
As we make our daily bread
Love is the one thing to rely on
And as long as we all have today, we'll be okay.I got my yearbook and I found my picture -
For a moment I pretend
I'm starting over and the road is open
Optimistic to the end.
But I do not want what I do not have
We all get what we need.
It's just a sadness and I can't explain it -
Oh the world just gets to me.
But every star above will show the way....And love is the stuff that we depend on
As we make our daily bread
Love is the one thing to rely on
Ans as long as we all have today
We'll be okay
We'll be okay
