

You Thrill Me

Exile

Now that you say our romance is through I want you to know that I'll never get over you.

And I can't believe you're out looking

for somebody new so soon

not after all that we had breaking my heart and it's so sad.

I'll never get over you

'cause You thrill me every night

every day you thrill me

baby don't take it away

you thrill me Lord

I need you to stay

'cause you thrill me

you thrill me. Now that you've gone I'll try to pretend

but baby

I ain't much good

at playing a game I can't win.

And if we could have it all over again

oh

baby I'd be so good to you all the things that I would do I'll never get over you

'cause You thrill me

...Oh

baby

I'd be so good to you all the things that I would do

I'll never get over you

'cause You thrill me

...
