

# Mary Mack

Al Duvall

Oh Mary Mack  
All dressed in black  
With silver buttons  
All down her back  
Say you found another lover  
Instead of me  
Tell ya what I'm gonna do  
I'm gonna set you free  
Girl, when you leave my sight  
When you go it's no mystery  
I'm not blind to your whereabouts  
And it's time, you came clean with me  
In your heart you belong to me  
But it's clear where you'd rather be  
And though it hurts and it could break my heart  
Baby I wanna know when it concerns me  
All I wanna know is when he kissed your lips  
Did it feel the same as me?  
And if it does then I will let you go  
I will bow out gracefully  
Oh Mary Mack  
Oh Mary Mack  
Babe, if your love is real  
Then you would not lie to me  
Ooh girl and if you love me still  
Then explain, explain this hotel key  
It's kinda sad after all I've done  
That you would turn your back on me  
Was it love or did he twist your arm  
To make you turn away, turn away from me?  
I wanna know is when he kissed your lips  
Did it feel the same as me?  
And if it does then I will let you go  
I will bow out gracefully  
All I wanna know  
Baby lets play  
All I wanna know is when he kissed your lips  
Did it feel the same as me?  
And if it does then I will let you go  
I will bow out gracefully  
All I wanna know is when he kissed your lips  
Did it feel the same as me?  
And if it does then I will let you go  
I will bow out gracefully  
All I wanna know  
All I wanna know  
Oh Mary Mack  
All dressed in black  
With silver buttons

All down her back  
Say you found another lover  
Instead of me  
Tell ya what I'm gonna do  
I'm gonna set you free All I wanna know is when he kissed your lips  
Did it feel the same as me?  
And if it does then I will let you go  
I will bow out gracefully All I wanna know is when he kissed your lips  
Did it feel the same as me?  
And if it does then I will let you go  
I will bow out gracefully All I wanna know  
All I wanna know  
All I wanna know  
...
