

Closer

Kele

20 seconds of loneliness, I know it's not been said
For the sleep how close he can, when you said it for bad
Underneath I know, that window
You find me, body my time
Howling an empty-hearted! In your absence I unravel
In your absence I am gone
So go easy on this heart
Times of love are for the part
In your absence I unravel
I need you CLOSER
I need you back here in my life
I need you CLOSER
I need you CLOSER
23rd of loneliness, our secret stopped being shared
Walk the streets of my own again, I feel laughter in my head
And every face I see is you
These wounds stay up in and run
And every voice I hear is you, is you
In your absence I unravel
In your absence I am gone
So go easy on this heart
Times of love are for the part
In your absence I unravel
I need you CLOSER
I need you back here in my life
I need you CLOSER
I need you CLOSER
