Portable Radio

Hall & Oates

Radio, radio
Turn up the power all nightNow take your pick of the modulation
Like a kid in a candy store
Now it's a hand carry situation
It's made for lying on the beach
Or dancin' in the streetsYou got your pertinent information
Or you can tune in to hear the scores
Now there's a power in a million stations
You can't ignoreCome on and listen to the
Radio
Turn up the power, power
Radio
Rock it for hours and hours and hours
RadioNow turn the soft to low
Portable radio
Viva la
Portable radioCrank up the power
Portable radio
Turn up the power all nightWell I, well I, don't wanna hear no static
And I don't wanna hear no jaw
Now put them platters on automatic
I cannot get enough
You got to give me more and morePlay some soul for the congregation
Rock and roll for the kids next door
Charge up your batteries across the nation
Viva la portable radioCome on and listen to the
Radio
Turn up the power, power
Radio
Rock it for hours and hours and hours
RadioNow turn the soft to low
Portable radio
Viva la
Portable radioCrank up the power
Portable radio
Turn up the power all nightIt's x-static
Portable radio
It's fully automatic
Portable radioViva la

Portable radio
Turn up the power all night
Turn it up, turn it upPortable radio
Play on, play on
Portable radio
Portable radioPortable radio
Viva la
Portable radio
Crank up the power
Portable radio
Turn up the power all night
Turn it up, turn it upPortable radio
Portable radio
Portable radio
Portable radio
Portable radio
Portable radio
