

Meant

Zach Winters

Teach me your heart
Show me where to find
all the secrets there

the ones you know are mine
Let's take this risk
that says our love is young
that says we're foolish
Let's prove them wrong

Cause I was meant to love you
I was meant to love you
yeah, I was meant to love you
the way you should be loved

Place your hand in mine
for the love and friendship there
Let's adventure out
past the arcing line
He said: Follow this one thing
Love one another
as I have loved you
as I died for you

Cause I was meant to love you
I was meant to love you
Yeah, I was meant to love you
The way you should be loved

When we bow our heads
nevermore to wake
our love's a garland there
whose flowers never fade

Cause I was meant to love you
I was meant to love you
Yeah, I was meant to love you
The way you should be loved

Yeah, I was meant to love you

I was meant to love you
Yeah, I was meant to love you
The way u should be love..
