

# Down the Road

## Plain White T's

Lost myself again, didn't care I was missing  
Said goodbye to friends and drove away  
I just don't belong in a town where no one listens  
Even if I'm wrong, I'll find a wayGotta get away from here  
Find a way to disappear  
Say goodbye to everything and everyone I knowGotta go and leave this town  
All it does is bring me down  
I just wanna tell my friends no matter where I go  
I'll see 'em down the roadLost myself again, no one knew I was missing  
Said goodbye to Dad and his new wife  
Stuck around this long, now I'm sick and tired of wishing  
Even if I'm wrong, I'll still be rightGotta get away from here  
Find a way to disappear  
Say goodbye to everything and everyone I knowGotta go and leave this town  
All it does is bring me down  
I just wanna tell my friends no matter where I go  
I'll see 'em down the roadI'm sick of dreaming  
I would rather stay up all night  
Live my own life  
Don't worry about me, yeahGotta get away from here  
Find a way to disappear  
Say goodbye to everything and everyone I knowGotta go and leave this town  
All it does is bring me down  
I just wanna tell my friends no matter where I go  
I'll see 'em down the roadI'll see 'em down the road  
I'll see 'em down the road  
(Lost myself again, didn't know that I was missing)  
I'll see 'em down the road  
(Said goodbye to friends)
