

Hope You Got What You Came For

Olly Murs

You and I, you and I
Always the same thing
Every time, every time
You come around Tell me now, tell me now
Why I'm believing?
Is it time,
Is it time to take a vow? Our little hearts are crying loud
I feel this silence coming down I hope you got what you came for
I hope you got what you came for
We can stand it outside
In the cold air
On your own yeah
You must be out of your mind
I hope you got what you came for I will keep, I will keep
Everything that I am
Go ahead, go ahead
Do what you like Guess I was
Guess I was lost in the moment
How to be
How to be out of time? Our little hearts are quiet now
I feel this silence coming down I hope you got what you came for
I hope you got what you came for
When you are stand it outside
In the cold air
On your own yeah
You must be out of your mind
I hope you got what you came for I guess we started something
We just don't know how to start
I guess we're broken hearted
Every time we have to part Our little hearts are quiet now
I feel this silence coming down I hope you got what you came for
I hope you got what you came for
When you are stand it outside
In the cold air
On your own yeah
You must be out of your mind
I hope you got what you came for I guess we started something
We just don't know how to start
I guess we're broken hearted

Every time we have to part You and I, you and I
Always the same thing
Every time, every time
You come around
