

# She's Dead

## White Hassle

(go ahead)(x3)

she's dead, you better get that through your head(2x)  
she's sleeping in somebody else's bed

i'm sure, i heard that knock upon your door (2x)  
what for did i hear that knock on your door?

ok, they're fixing the streets today (2x)  
ok one way or another, you gotta pay

all right, it's a technological feel (2x)  
looks like they have reinvented the wheel

oh my, i got hit in the face with a pie (2x)  
i'm not even gonna ask you why.
