

Rider of the Astral Fire

[Luca Turilli](#)

There between the eight suns
right before the system Hazor
shines the silent planet
Alkor Zephyr is its name
Surface made of magma
of wide oceans and volcanos
middle dusty regions where
no trace of life is found
From the space an ancient secret
soon will mark this old world
In the southern region
live the people of Iraklia
descendants of peaceful
ancient dynasty of Lor
Between these a warrior
destined to become the victim
victim of a prophecy
now lost between the stars
He will be the astral rider
prophecy's new fighter
FROM THE DUST
OF A TIME NOW FORGOTTEN
IT WILL COME THE DESTROYER OF WORLDS
AS THE LEGEND OF THE ANCIENTS
REVEALED WITH ITS WORDS
IT WILL COME FROM THE BLOODY DIMENSION
WHERE DEATH IS A PRESENT FROM GOD
HE'LL FACE THE SACRIFICED ONE
THE RIDER WHO OWNS...
WHO OWNS THE ASTRAL FIRE!
Arkan is the name of thunder
prophecy's new fighter
