

# Anthem

## Ida Lafontaine

Oh no that song on radio, radio, radio  
It spins like ten times in a row, in a row, in a row  
Don't fit my vibe it's just too slow, just too slow, just too slow  
So I'm gonna go back to the beat I know, beat I know, beat I know I'm gonna sing it, shout it, lay down the verse  
Takes me back where I heard it first  
Music breaks me out of the world Cause everybody needs an anthem  
808 in your system  
Breaking out like your heart's a kickdrum It's your anthem  
Yeah we bleeding the speakers  
Make the music your pain reliever Yeah, oh, yeah  
Put your anthem on  
Yeah, oh, yeah  
Put your anthem on Sometimes my mind's out in the cold, in the cold, in the cold  
But that chorus always takes me home, takes me home, takes me home  
Sets me on fire oh whoa  
It's burning through my stereo, stereo, stereo I'm gonna sing it, shout it, lay down the verse  
Takes me back where I heard it first  
Music breaks me out of the world Cause everybody needs an anthem  
808 in your system  
Breaking out like your heart's a kickdrum It's your anthem  
Yeah we bleeding the speakers  
Make the music your pain reliever Yeah, oh, yeah  
Put your anthem on  
Yeah, oh, yeah  
Put your anthem on Fall in love with the rhythm  
Bang the wall like a gong gong  
Pound the ground like a tom-tom  
Yeah Fall in love with the rhythm  
Bang the wall like a gong gong  
Pound the ground like a tom-tom Cause everybody needs an anthem  
808 in your system  
Breaking out like your heart's a kickdrum It's your anthem  
Yeah we bleeding the speakers  
Make the music your pain reliever Yeah, oh, yeah  
Put your anthem on  
Yeah, oh, yeah  
Put your anthem on
