

I Can Do the Leavin'

[**Tenille Arts**](#)

We're just going through the motions
I don't know how we keep it goin'
and, I don't wanna stay here if you don't wanna stay here
now, baby you were all I ever wanted but lately
we've lost it and you know it so if you wanna blame me then
I can do the leaving tonight.

Aint it the hardest part to admit that you've gone as far,
this loves gonna take you, yeah, I'm gonna miss you but

[CHORUS:]
We're just going through the motions
I don't know how we keep it goin'
and, I don't wanna stay here if you don't wanna stay here
now, baby you were all I ever wanted but lately
we've lost it and you know it so if you wanna blame me then
I can do the leaving tonight.

I'm not angry and I don't wanna fight
we've said everything, everything but goodbye.

[CHORUS:]
We're just going through the motions
I don't know how we keep it goin'
and, I don't wanna stay here if you don't wanna stay here
now, baby you were all I ever wanted but lately
we've lost it and you know it so if you wanna blame me then
I can do the leaving tonight.

woahhh, oh, ohh x2

if it makes it easy then I can do the leaving tonight.
