

Sororal Feelings

U.S. Girls

One,two,one two three.Well there were four of us in a really small space
Sharing more than a family name
So many memories toward that line. . . (? ? ?)
When I married you I didn't know at the time
I married you without the knowledge that you walk that line
You know at the dance meet
All my sisters before you landed on me
You didn't pay me
You thought that you should get it free
Sororal feelings erased from the minute you settled on me
And now I'm going to hang myself
Hang myself from my family tree
You never know if I was the best maybe
Mary had you in a really deep sweat
I heard Lucy really gave a ride
You know Sarah with those long thin thighs
You damaged my pride
I'm gonna leave without goodbye
You played the game with all my sisters before you settled on me
You didn't pay me
You thought that you should get it free
Sororal feelings that used to come so naturally
And now I'm going to hang myself
Hang myself from my family tree
Sororal feelings you know they used to come so naturally
And now I'm going to hang myself
Hang myself from my family tree
And now I'm going to hang myself
Hang myself from my family tree
And now I'm going to hang myself
Hang myself from my family tree
