Tore My Heart

Oona

La la la la laIf I had my way
You would still be stuck on me
But when I rock myself
to sleep I dream of you againLa la la la laYou know you tore my heart
You did just what I always thoughtLa la la la laSomewhere you're fast asleep
I hope you're terrified
One long nightmare
Cuz you tore my heartI still feel your skin
Soft as velvet, thick as sin
Whisper tender, shiver deep
You got me good, no good for meLa la la la laSomewhere you're fast asleep
I hope you're terrified
One long nightmare
Cuz you tore my heart
