

# Gypsy Woman

Hilary Duff

Man: The battle of France is over

Hilary: Congratulations, you've joined the ranks of all the rest

Was it her face that invaded your mind?

Her kind isn't that hard to find

She lets you think that you found her first

That's how she works, her sick and twisted gypsy curse

(Bridge)

She can swallow knives

She can swallow lives

Gold and black stare,

Brought the night of your demise

(CHORUS)

Try to run away with the gypsy woman

Here today then gone for good

Can't get away with the gypsy woman

Thought no one would know your secrets down below [but ya]

Can't go

Can't go with her

Can't go

Can't go with her

Can't go

Can't go with her

Can't go

The gypsy woman

This is her favorite game to play

She's got you stumblin', stumble, st-st-stumblin'

Talks with a grin cause she's got no shame

Enjoys the fame, bringing down the family name

(BRIDGE)

She can swallow knives

She can swallow lives

Gold and black stare,

Brought the night of your demise

(CHORUS)

Try to run away with the gypsy woman

Here today then gone for good  
Can't get away with the gypsy woman  
Thought no one would know your secrets down below [but ya]  
Can't go  
Can't go with her  
Can't go  
Can't go with her  
Can't go  
Can't go with her  
Can't go  
The gypsy woman

She can rob you blind with just one look from those eyes  
Out of all the thieves that trained her  
None of them could tame her

(CHORUS)

Tried to run away with the gypsy woman  
Here today then gone for good  
Can't get away with the gypsy woman  
Thought no one would know, your secrets down below  
Can't go, can't go with her  
Can't go, can't go with her  
Can't go, can't go with her  
Can't go, (with) the gypsy woman

Can't go, can't go with her  
Can't go, can't go with her  
Can't go, can't go with her  
Can't go, the gypsy woman

Tell me was it worth it? Can You Say It's Worth it? Tell Me Was It Worth? Can You Tell Me It Was Worth it?

Man: The battle of France is over
