

Taking It Global

Big Brovaz

This is how the flow goes, the flow goes from my
Head to my lips, from my lips to the mic
From the mic to the dat, from the dat to the wax to the DJs
Then shit spreads like anthrax Once its popping aint no way you can stop that, we world wide
Global like T Mobile, of course there gonna hate 'cuz
We used to be local, cant stay ghetto no more that shitll choke you
I gotta keep on moving like we supposed to Are you in trouble now? They done let us in the game
You better knuckle down, yo, 'cuz word on the street
Is our flow is the meanest and somehow were able
To maintain a clean image I heard your rhymes washed up and your tunes finished
We popped up to lock shop up, we mean business
Should I send condolences or best wishes?
They said they was making hits, all I heard was misses Around the world we go
You cant stop us no
You heard the flow now
You know Big Bro taking it global Around the world we go
You cant stop us no
You heard the flow now
You know Big Bro taking it global We 'bout to c-c-creep up on 'em, step up on 'em
Better run course, BB coming looking stunning, ooh
I bet you never knew my crew be doing what we doing
Dont you screw 'cuz now were moving so you better believe Big Bro are going top of the league 'cuz were so
cold people
Try holding us back but were gonna let go
This operations 'bout to get on the way, yeah
Said we moving like a hurricane, step out this lane Are you ready? Ohh, ohh, ohh, ohh
We gonna hit you with lyrical flow
Messages running through your spinal to let you know
It's Big Bro and were flying on wings taking us global Around the world we go
You cant stop us no
You heard the flow now
You know Big Bro taking it global Around the world we go
You cant stop us no
You heard the flow now
You know Big Bro taking it global From London to Paris from New York to Cali, were taking it global
Dont you now 'bout Big Bro if you dont know then
Now you know about us we're traveling the Atlas
On our way we go, on a quest we leave the rest behind us 'Cuz they can catch up with the rest no, no
Yes, you know we got it locked from day one when we showed up

In the spot the people like, ohh, no, them dudes too hot
We taking it worldwide, we just cant stop making you rock Making you drop like what we set it off getting that
cheese

Like rats and then when it comes we watch out for the cats

'Cuz in the slums they hate it when we go global

'Cuz now you a worldwide mogul Around the world we go

You cant stop us no

You heard the flow now

You know Big Bro taking it global Around the world we go

You cant stop us no

You heard the flow now

You know Big Bro taking it global We takin' it global

We takin' it global
