

Up All Night

Daniel J

Girl you need to
See what I can do
I'll keep ya up all night
I could show you
Things you never knew
I'll keep ya up all night And I
Don't know if you know
But I think you could be the one
Keeping me up all night And I
Think this could be fun
Think this could be love
Just keeping us up all night (x2) (Chorus) You want, you want me
I can see it in your eyes
And this love, could be
Anything you want just trust me There ain't nothing
That we couldn't do
Baby we got all night
Cause girl there's no one like you
That's the truth
You're keeping me up all night And I
Don't know if you know
But I think you could be the one
Keeping me up all night And I
Think this could be fun
This could be love
Just keeping us up all night (Chorus) You want, you want me
I can see it in your eyes
And this love, could be
Anything you want just trust me Girl you know
That you could be the one
Baby this is more than just some fun
All I know is what I want is you
Yeah, it's true, yeah (Chorus) You want, you want me
I can see it in your eyes
And this love, could be
Anything you want just trust me (x2)
