I Need Your Love

John Miles

I need your love
I need your love
I need your love
I need your loveSome times, I feel lost and I don't know what you believe
My wires get crossed, and I wonder how you could leave
But one thing I know, I just can't go on living from day to day
Won't you listen to me when I say, I need your love?I need your love
Oh, won't you believe me?
I need your love
For every time I close my eyes to sleep, you'll still be thereAnd I get so afraid, when the night closes in on me
I thought that we had it made, from now on, it's just a memory
I wake up at night calling your name, no body hears, but me
I've just got to try to make you see, I need your loveI need your love
Oh, won't you believe me?
I need your love
'Cause every time I close my eyes to sleep, you'll still be thereI wake up at night just calling your name
No body hears, but me
I've just got to try to make you see
I need your loveI need your love
Oh, won't you believe me?
I need your love
'Cause every time I close my eyes to sleep, you'll still be thereAnd I'll be waiting for you, I need your love
I need your love
I need your love
'Cause every time I close my eyes to sleep, you are still thereAnd I'll be waiting for you, I need your love
I need your love
I need your love
'Cause every time I close my eyes to sleep, you are still thereAnd I'll be waiting for you, I need your love
I need your love
I need your love
Oh, you are still be thereAnd I'll be waiting for you
I need your love
Won't you believe me?
