Everything

Jade

How breathless I feel in your arms
How breathless you make me feel so
There's no-one before in my eyes
I'll take what you give meEverything sounds better
Everything looks brighter
Everything tastes better
Everything we do feels betterEverything
Everything
Everything
Everything (feels better)
Everything (feels better)I pray all this time in your arms
How breathless i feel when you are
With only your life to surround me
I'll take what you give meEverything sounds better
Everything looks brighter
Everything tastes better
Everything we do feels betterEverything sounds better
Everything looks brighter
Everything tastes better
Everything feels betterEverything sounds better
Everything looks brighter
Everything tastes better
Everything we do feels betterEverything
Everything we do feels better
Everything feels better
Everything feels better
