

State Of Mind

Machine Gun Kelly

Who the motherfucker's still bro

You!

Never hustle, never will blow

You!

Who's the latest on radio,

and who's the greatest

Know the answer? No!

Who the motherfucker's still bro

You!

Never hustle, never will blow

You!

Who's the latest on radio,

and who's the greatest

The answer was my name! Look out my back I put the weight of that on my shoulder

I'm insomniac so I can't take a nap when I'm sober

They say sleep is the devil, I just made friends with Jehovah

Stop sleepin' on me I just broke bread with Hova

I'm talkin' Jigga man, hundred fuckin million man

Hundred hustlers at Puffs crib, no civilians there

Do not get it twisted cause I never pose for pictures man

I'm livin the life you haters picture on the Instagram
