

It's So Obvious (2006 Remastered Version)

Wire

It's so obvious,
it's here it's there,
it's not just the colour,
it must be more,
at least 17+3 score. This is 77 nearly heaven,
it's black white and pink,
just think there's more to come,
hum hum hum hum,
it's so obvious.
Well it's alright just listen,
can't wait for 78,
Got those r.p.m.,
can't wait for them,
don't just watch,
hours happen,
get in there kid,
and snap them.
