Back On Your Side

Chris Isaak

You can talk about true love, say we're through.
And I do my best pretending I, don't love you.
But when they put you down, they're always surprised, cause' then I'm.
Back on your side, back on your side, back on your side baby I'm,
Back on your side.And it was friends who told me stories from the start.
But I'm not listening now, I'm listening to my heart.
And no one blames you, if you really don't believe but baby I'm,
Back on your side, back on your side, back on your side baby I'm, I'm back on your side.You know I've always loved you and I love you still.
You know I've always loved you and I always will.
Baby I'm, back on your side, back on your side, back on your side, baby I'm,
Back on your side.
I'm back, back on your side, darling I am back, back on your side.
I'm back on your side, back on your side, back on your side, oh.
