

Gimme A Kiss

Madi Diaz

It's so late and you could drive me home
But let's wait to see where this is going
You want me
We know what that could mean so what's it gonna be

I cannot pretend to settle down
And our wedding vow's not what I think about
I want you
Got room for two so what you want to do

I'm not gonna make it
I'm through trying to fake it
But you're making me wait
And I don't want to wait

Just give me a kiss, one little kiss
Oh baby, just give me a kiss
Give me a kiss, one little kiss
Oh baby, just like this

And I know you want to take it slow
But baby you should know I brought my stereo
So get your lights down low (lights down low)
And baby we could go

I'm not gonna make it
And I'm through trying to fake it
But you're making me wait
And I don't want to wait

Just give me a kiss, one little kiss
Oh baby, just give me a kiss
Give me a kiss, one little kiss
Oh baby, just like this

Give me a kiss, one little kiss
Oh baby, just give me a kiss
Give me a kiss, one little kiss
Oh baby, just like this

Give me a kiss, one little kiss
Oh baby, just give me a kiss
Give me a kiss, one little kiss
Oh baby, just like this

Give me a kiss

Give me a kiss, one little kiss
Oh baby, just give me a kiss
Give me a kiss, one little kiss
Oh baby, just like this

Give me a kiss
Give me a kiss, one little kiss
Oh baby, give me a kiss
It's only a kiss
Give me a kiss, one little kiss
Oh baby, just like this
One little kiss like this
