Natural Thing

Fogerty John

Well, the flower was made for beauty
And the bee was made to sting
All around this world
Honey, it?s a natural thing
It can shake the high and mighty
Bring a strong man to his knees
All around this world
Honey, it?s a natural thing
An? a man gets up in the mornin?
He got to find that tiger to tame
All around this world
You know it?s a natural thing
But a man alone ain?t nothin?
Every Tarzan needs a Jane
All around this world
Honey, it?s a natural thing
Well, we got it

Well, the little girl?s lookin? so pretty
They make a poor man feel like a king
All around this world
Honey, it?s a natural thing
It drive a man to cross the desert
Or risk his life on a stormy sea
All around this world
Yeah, it?s a natural thing
Oh yeah
Well, the flower was made for beauty
And the bee was made to sting
All around this world
Honey, it?s a natural thing
All around this world
Honey, it?s a natural thing
Who, what to do me, what, yeah
