

Anybody's Window (Remix No. 2 By 909)

Wolfsheim

Look through anybody's window
See everywhere the same
People suffering from hunger
A narcotizing pain Call it justice, call it fair
I just call it a mistake
Starving masses cry for help
In this state of decay In this ruthless time
And they heard the favorite pop songs
To remind of times of wisdom
They heard a thousand voices say
Satisfaction, fortune, health, so far away Look through anybody's window
See everywhere the same
People suffering from hunger
A narcotizing pain Call it justice, call it fair
I just call it a mistake
Starving masses cry for help
In this state of decay Looking people in their eyes
See the concrete bricks behind
See the false tears that they cry
Feel this sleeping guilt inside Pray to heaven, pray to hell
Pray for reason, for a way
Public false asleepen eye
No longer dream of paradise Look through anybody's window
See everywhere the same
People suffering from hunger
A narcotizing pain Call it justice, call it fair
I just call it a mistake
Starving masses cry for help
In this state of decay
