[Biffy Clyro](#)

this will killopen your head, turn your back away from mesensations, collapse under broken hearts
when times ?up?, just when you fall asleep
but knife the heart, to lose my way
listen hard!, that's just what i thought todaybut knife the heart, to lose my way
em, not quite sure..., that's just what i thought todaywhere now? i'll get back, i'll get back
where now? i'll get back, i'll get back
where now? i'll get back, i'll get back something's wrong with light?
where now? i'll get back, i'll get back something's wrong with light?random screaming
