

# We Can't Ever Die

## White Arrows

That's all I'm all alone  
Not final, I saw you leave though  
Right before I had the idea of libido  
Is it known on its own  
I got fire for my freedom  
No I don't know what came before(So we say)  
We can't live life  
We won't ever change  
We can't ever die  
We are energy  
Only the young die young  
There's no death that life doesn't come from  
Take what you need and then just leave the rest  
I can see you by the door  
Masking colors, paint by numbers  
There was something there but not anymore(So we say)  
We can't live life  
We won't ever change  
We can't ever die  
We are energy  
(So we say)  
We can't live life  
We won't ever change  
We can't ever die  
We are energyWe can't ever die  
(So we say)  
We can't live life  
We won't ever change  
We can't ever die  
We are energyWe can't ever die  
We can't ever die
