

You Are My Friend (feat. Alex Sasser)

North Point Kids

When I'm up (up, up), when I'm down (down, down)
When I laugh, when I frown
When I'm spinning, round and around
Everywhere I go, oh I know You are with me always

God, You are my good good friend
Yes, You are my good good friend
And I'm jumping all around the room
You are with me, yes it's true
When I fall, You pick me up again
You are my friend, my good good friend
You are my friend, my good good friend

When I'm up (up, up), when I'm down (down, down)
When I laugh, when I frown
When I'm spinning, round and round
Everywhere I go, oh I know You are with me always

God, You are my good good friend
Yes, You are my good good friend
And I'm jumping all around the room
You are with me, yes it's true
When I fall, You pick me up again
You are my friend

So glad I have a friend like You
I want to be a good friend too!
Clap your hands, stomp your feet
Spin around and sing

So glad I have a friend like You
I want to be a good friend too!
Clap your hands, stomp your feet
Spin around and sing

So glad I have a friend like You
I want to be a good friend too!
Clap your hands, stomp your feet
Spin around and sing

God, You are my good good friend
Yes, You are my good good friend
I know You are my good good friend
Yes, You are my good good friend
And I'm jumping all around the room
You are with me, yes it's true
When I fall, You pick me up again
You are my friend, my good good friend
You are my friend, my good good friend

You are my friend
